

## Men's & Women's Pennant Submitting Team Lists & Results Instructions In 2020,

Golf Peninsula Vic will be using the Golfbox system for all events. The system is extremely user friendly and resources are detailed below to make the process as seamless as possible. Golf Victoria have put together an instructional video that provides a step-by-step guide in how to use the Golfbox system to upload your team list and submit results.

Please watch this video: [https://www.youtube.com/watch?time\\_continue=3&v=9zDTgrdbJIM](https://www.youtube.com/watch?time_continue=3&v=9zDTgrdbJIM)

### Process

**1. Select team:** team managers follow this link – <http://tour.golfbox.dk/Interclub/search.aspx>.

Add in match number and select team no later than 7am on the day of play. The team list isn't required to be the order of your team. Simply the 7 players plus an emergency is only required. The daily team sheet (in playing order) is required 30min prior to play.

**2. Enter results:** it is the hosting team manager's responsibility to submit results for all contests.

To submit results, follow this link – <http://tour.golfbox.dk/Interclub/search.aspx>.

Add in match number and submit results for all matches of your hosting round.

**3. Results** will be live on the GPV website (<https://www.gpv.net.au/cms/pennant-j/>) as soon as you 'save' the results. Please note: clubs that add new squad members during the season (that were not on the original squad list) will be responsible for adding them to their list via Golfbox. Instructions on how to do this are also part of Golf Victoria's instructional video.
